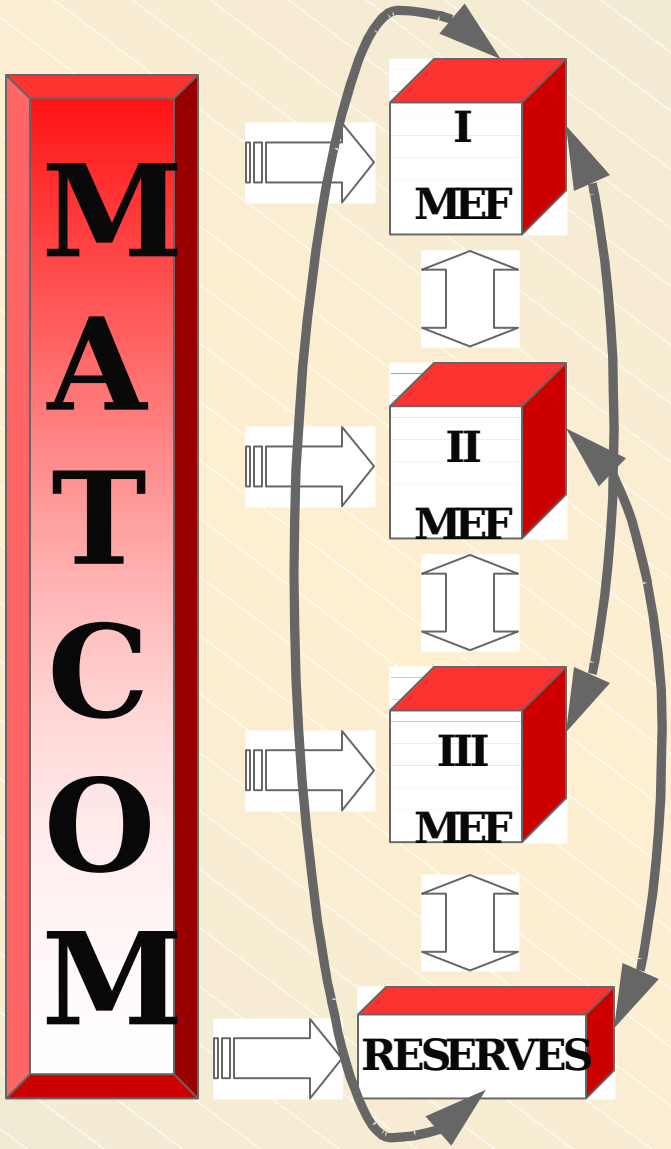
# CENTRALIZED SECREP MGMT

**MISSION STATEMENT: To streamline expeditionary logistics support by using information and speed to replace mass and footprint. To support operational maneuver from afar and become more agile. To plan and implement the migration of the current environment of decentralized management of SECREPS to a centralized inventory control capability.**



**BENEFITS:**

1. Increased Readiness
2. Efficiencies
3. Smaller Footprint
4. World Wide Asset Visibility
5. More agile
